

Product	What it is	Use on	Pros	Cons
Tenex Ager	Resin-based enhancing sealer	Resinated stone such as slab granite	Excellent darkening agent even on light stones	Solvent smell
Tenex Tiger Ager	Resin-based enhancing sealer for dark exotic stones	Resinated stone such as slab granite	Provides more intensity of color than Ager	Solvent smell
Tenex Pectro	Optical dye	Granite to hide micro-fissures	Improves the visual quality of the grains within the surface of granite	Not a sealer Sealer must be applied separately
StoneTech Enhancer Pro	Solvent-based sealer that uses polymeres to bring out the natural color and darken stone	Unpolished stones	Mild solvent base, penetrates deeply into the surface of stone Very effective sealer	More expensive than the water-based alternative Dries lighter after curing
StoneTech Enhancer water-based	Water-based sealer that uses polymeres to bring out the natural color and darken stone	Unpolished stones	Sovent free	Requires 2 applications Dries lighter after curing Interior use only
Akemi Darkener Super	Color intensifier, not used as a sealer	Polished and unpolished dark and black absorbent stones	Solvent base penetrates deeply into the stone	Not a sealer Sealer must be applied seperatly
